MURAVYL

Grabo Muravyl is a newly developed high-performance, flexible wall covering product, with total thickness of 1.5 mm, and 0.5 mm wear layer for an extended durability. The glass fibre in the multi layered product ensures excellent dimensional stability, and thanks to the flexibility and the smooth surface it is easy to install either vertically or horizontally. We offer our wall covering with 12 uni colours, and the product is weldable and washable. Due to its B-s2,d0 fire classification and antibacterial properties Muravyl is a perfect choice for any commercial wall covering application.
